

Departmental Short-Term and Long-Term Strategic Issues

Department: Real Estate Valuation

FY2007

Short-Term Issues: List critical issues facing the department now and through the next couple fiscal years.

- Implementing, including integration, of NovaLIS' Land Development office (LDO), and Assessment Office (AO), which will complete Phases I and II of the HP Migration Project.
- Implementing, including integration with LDO and AO, of a new Geographic Information System which will complete Phase IIA of the HP Migration Project.
- Funding for PC's to collect data elements and sketch while in the field.
- During implementation process of AO and LDO it's critical to insure that internet accessibility to our data and maps is not interrupted.
- Change in staff due to office retirements.
- Transition from Tax Maps to GPIN references

Long-Term Issues: List major issues or trends that may confront the department beyond the next couple fiscal years.

- Changes in Code of Virginia Title 58.1 Taxation due to legislation by either the Executive Branch or the Virginia General Assembly.
- Addressing Billings and Collections to tie into our CAMA system.
- Analysis of Hardware and Software for data collection.
- Insure smooth integration of systems county wide that may or may not effect individual offices
